SECURIKEY ONLINE

The fifth generation Securikey website features a design focused on user friendly navigation, allowing easy product selection, whilst providing in-depth technical support in both video and printable media. For more detailed information about the company and our products, including **downloadable brochures, price lists, cash and fire ratings, installation guides** and details of your nearest Securikey stockist, please visit **www.securikey.co.uk**. The website is just one method for potential customers to research our products. We welcome you to talk to us directly if the topic is of a more secure or sensitive nature, please call Securikey on 01252 311888.

SUPPORT

The support section of our website contains over 50 videos showcasing many of our products providing a unique video presentation of operation and programming of our more complex products. These are hosted on YouTube as well as the Securikey website.

WHERE TO BUY:

Securikey products can be purchased from our network of distributors and are available from both the high street (for those customers who like to 'try before they buy') and via selected website retailers. For more details please visit our website: www.securikey.co.uk.

WELCOME

For over 40 years Securix has been a trusted partner of many UK companies and institutions, supplying a comprehensive range of innovative security and safety products which meet the requirements of even the most demanding of environments.

Combining our technical expertise and knowledge of security with continued evaluation of customer experience and development of our products, we have provided peace of mind and protection to people, buildings and businesses alike; from the smallest shop to the largest retail store; workshops to factories; Local Authorities to Central Government Agencies; Financial Institutions to NHS Trusts, Schools, Colleges and Universities.

QUALITY • INNOVATION • EXPERTISE

CERTIFICATION & TESTING

INDEPENDENT TESTING

Many Securikey cash and fire safes have undergone independent testing to European standards. Each is approved and certified after undergoing a rigorous and exhaustive series of technical and practical tests, for use within a diverse range of applications and environments. This is signified by the issuing and mounting of the appropriate badge showing the name of the test house and model number.

In addition, Securikey also include an insurance certificate, detailing the recommended level of protection.

£100,000

CASH RATING

Each Securikey safe is tested and classified by the level of security it provides and designated by a cash rating from £1,000 up to £100,000.

For the storage of valuables, ratings can be calculated by multiplying the cash amount by 10. These ratings are a guide and it's important that you liaise with your insurance company prior to any installation.

30mins
750°

FIRE PROTECTION RATING

The level of fire protection provided is indicated by the use of this icon, signifying the temperature and time duration achieved. This rating is established from both our own 'in-house' test and independent testing. In both Sweden and the UK, testing standards include NT017/BS476-20/EN1363-1.

ACCREDITATIONS

In addition to our ISO 9001 certification, Securikey are members of the Master Locksmiths Association (MLA), ESSA and Secured By Design (SBD). All of these organisations promote the highest standards within the security industry. The inclusion of the 'AIS Approved' logo re-enforces the importance of independent testing.

SEURIKEY STANDARDS

Where no clear industry standards exist, Securikey has developed its own rating system to aid product selection. We have applied over 40 years experience within the security industry to these standards, and found them to be an excellent measure of strength and durability.

Gold Rated

Gold

Products which provide the highest possible standard of security in each range.

Silver Rated

Silver

Offering additional security and strength, over and above Bronze level.

Bronze Rated

Bronze

Where a base level of protection or security is required.

INSTALLATION

Our specialist network of installers is able to deliver and fix any of our safes/cabinets within the UK Mainland. The majority of these installations can be carried out by the completion of a simple risk assessment form downloadable from our website www.securikey.co.uk. More complex situations may require a site survey.

GUARANTEE

Securikey branded products offer a 1 year guarantee in respect of materials and workmanship.* This can be increased to 2 years by registering online at www.securikey.co.uk. Master Lock Security branded products carry a lifetime Guarantee.

*Guarantee applicable to the lock is limited to that offered by the lock's manufacturer.

Disclaimer: Title in any goods supplied remains vested in Securikey Limited, until the purchase price, handling and transport charges have been paid. Securikey must be notified within 48 hours of receipt if goods have been damaged in transit. The delivery slip must be marked accordingly. Every effort has been made to ensure that the information in this brochure is correct. We have a policy of continually developing and improving our products and reserve the right to change specification without notice. By virtue of the Trades Description Act 1968 all measurements and weights must be considered approximate.

LOCKING OPTIONS

Unless otherwise stated Securikey products will be supplied with a key lock as standard. The type of lock will depend upon its position within the range. Securikey recognise that there may be a requirement to add or alter the standard locking configuration. It is for this reason we offer the following alternatives.

A REVO B/BR
1 Manager, 39 User Codes
Full function lock with multiple user codes, audit trail and time locking to prevent unauthorised entry during specific time zones.

E MECHANICAL PUSH BUTTON LOCK
A push button lock similar to those used extensively within offices in the UK. This lock type is available in both deadbolt and slam lock option.

I LA GARD 39E
1 Manager, 9 User Codes
VdS Class 2 electronic lock with time delay and 63 event audit trail (software required).

B 3/4-WHEEL MECHANICAL COMBINATION
A combination lock used extensively in the safe industry. Offers in excess of 1 million combinations.

F CL1000
Entry level electronic lock with programmable 4-digit code, designed to replace our standard Cam Lock. May be fitted horizontally or vertical depending on product.

J EDL 77
High quality and extremely reliable electronic lock with selectable code lengths from 4-14 digits, 2 user code option and low battery warning.

C REVO A
1 Manager, 8 User Codes
A heavy duty lock offering up to 9 user codes and time delay of up to 99 minutes.

G WITTKOPP PRIMOR 2000
2 User Codes
VdS Class 2 lock with 2 user code and time delay facility.

K LA GARD 66E
1 Manager, 9 User Codes
Multi user electronic lock with 512 event audit. Programmable features include time delay, time delay override, dual combination, silent alarm and remote signal override.

D PADLOCKING CAM LOCK
Designed to replace our standard Cam Lock, this option accepts a padlock with 8mm diameter shackle (max).

H MAUER CODE COMBI K
A simple to operate 2 user code lock with audible indication. Only available on Secure Stor.

L KABA AXESSOR
4 Managers, 36 User Codes
Designed for use in the high security sector. Provides a wide range of functions such as a User Group management, Courier Code, Dual Mode, Duress Code.

KEY CONTROL SYSTEMS

Effective key management and secure storage is an essential part of any organisation's security strategy. Whether you need a simple key cabinet, a mechanised key control system or a sophisticated key issue and monitoring system, our range of high quality key storage cabinets help to maintain total accountability of large quantities of keys and help prevent unauthorised access within domestic, commercial and industrial environments.

EFFECTIVE KEY MANAGEMENT • SECURE STORAGE • MULTIPLE LOCKING OPTIONS
2,000+ KEY POSITIONS • GRADED SECURITY STANDARDS

Gold Rated

HIGH SECURITY KEY FILING SYSTEMS

The ultimate in Key Control

Our range of high security key control systems, the most comprehensive available, is manufactured utilising the same technology as our cash safes and tested to the highest standards, making them ideal for safeguarding against lost or stolen keys even within high security commercial applications, such as the UK's Prestige Motor Dealers, Police Stations and Banks.

HIGH SECURITY:

- Body constructed from 3mm steel.
- 6mm slab door.
- Three-way locking mechanism with 20mm diameter bolts.
- Features include adjustable hook bars, clever key tags and index control.
- Available in deeper models for the storage of bunches of keys.

FLOOR STANDING SYSTEMS:

- Based upon the FireStor (page 35) our Floor Standing systems are larger capacity key cabinets. Their key panels are on telescopic slides for easy access and storage.
- These units are AiS approved.

SYSTEM CABINETS

Affordable key control

These cabinets are best suited to domestic and commercial use for key control and tracking. Constructed from pressed and folded steel and secured with a choice of multiple locking options, the cabinets provide the space to store and track up to 600 keys and include adjustable hook bars to accommodate different key lengths. Each model has a removable control index for out-of-hours peace of mind, colour-coded hook bars and tags to ensure quick identification, both of which are numbered. For larger requirements, our range of deep system cabinets provide the extra space required to accommodate bunches or a mixture of bunches and individual keys.

- Includes security seals and loops to secure keys that require clear evidence of tampering or removal.

KEY REELS AND RETRACTORS

Four decades after our first Key Reel was produced, millions are in use worldwide in hundreds of different professions, by people who require high-quality products they can depend on daily. From drivers to porters, security guards to shopkeepers, our key reels and retractors are a convenient and secure way for keeping keys, tools and ID badges to hand at all times. Lightweight and durable, they can fasten to either belts or clothing and are available in a range of 'own-branded' models to suit individual company requirements.

KEY REELS AND RETRACTORS

HEAVY DUTY

Available in both heavy duty and extra heavy duty retraction forces, the popular SUPER48 key retractor offers a case made from a durable polycarbonate material. Attachment to your belt is achieved either by a metal spring clip that converts to a belt loop (with the pin supplied) or a leather loop that slides easily onto a belt. Our other Heavy Duty models are manufactured with either an ABS or stainless steel case, combined with high strength Kevlar cord, to give a lifetime of service.

EXTRA HEAVY DUTY:

- Carries additional weight. Ideal for use with GPS devices, torches and tools.

HEAVY DUTY:

- Endurance tested to withstand 500,000 pulls.
- Kevlar is stronger and lighter than steel on an equal-weight basis.
- Super 48 has a patented ball-joint feature, which secures the keys firmly in place.
- With 4 methods of attachment, there is a model to suit all applications.

STANDARD & LIGHT DUTY

All standard duty key reels feature 600mm of stainless steel chain housed in either an ABS or stainless steel case. With 5 alternative methods of fixing including Spring Clip, Belt Loop, Spinner, Bracket mount and Karabiner clip. This range of products is best suited for light commercial and domestic use. The light duty range is perfect where there is a requirement to hold an ID or access control card. These can be pinned or clipped to a lapel or waistband.

STANDARD DUTY:

- Keeps your keys within easy reach.
- Allows keys to be used at arm's length.
- Key silencer and key tab models accept a 57mm wide belt.
- Bracket mounted model keeps vital equipment or tools to hand.

LIGHT DUTY:

- No more lost or misplaced ID/Swipe cards.
- Small, lightweight and easy to use.
- Cards can be used at arm's length and return smoothly after use.
- Own branding option for corporate clients.

ACCESSORIES:

- Products designed to complement our Heavy and Standard Duty ranges.
- Models include, key rings, key carriers and key chains.

Key Reel & ID Badge Holder (RSK)

ID/Swipe Card & Reel (RMBIDCB)

T-REIGN RETRACTORS & CASES

The T-Reign range of Retractors and Cases are a new addition to the Key Reel range supplied for over 40 years by Securikey. Designed and manufactured in the USA they are built to last and particularly suited to use in industrial and commercial areas. These products are great for securing tools, radios and phones for people working at height or in situations where the loss of an item could cause production downtime or injury on site.

CASH SAFES & CABINETS

Our range of freestanding safes offers the most comprehensive selection, whilst maintaining clear areas of speciality. Each safe is given a cash rating depending on its ability to resist attack, which is designed to help you choose the model which best meets your needs. Our Euro Graded Safes offer maximum protection with full Vds Test House approval and provides a robust solution for storing money and valuables in either domestic or commercial environments.

MULTIPLE SIZE OPTIONS • SECURE STORAGE • CERTIFIED AND TESTED
ALTERNATIVE LOCKING OPTIONS • DOMESTIC & COMMERCIAL USE

Bronze Rated

EURO VAULT

(£1,500 cash rating)*

Utilizing the same build quality as our Mini Vault range these safes will take a laptop, cash drawer, box file or valuables and are available with either a motorised electronic lock with keypad for the convenience of keyless entry or Euro Profile Cylinder, for those customers who wish to integrate their safe with house or business security arrangements. Perfect for any situation where cost and flexibility are paramount.

KEY LOCK VERSION:

- Manufactured with a 2mm body and 4mm anti-bludgeon flush fit door, with 20mm hardened steel locking bolts.
- Supplied with Euro Profile half cylinder. 40mm length.

ELECTRONIC VERSION:

- Locking is via a motorised lock with keypad.
- The lock has a single use code similar to those used in hotels, this means the user code can be changed each time the safe is used.
- A management override key and master code ensures emergency entry at all times.

GAS STRUT ELECTRONIC:

- Designed to allow installation in areas with limited access, this unit has a larger door and integrated light.
- Hinged door with gas strut assistance.
- Locking is via a motorised lock with keypad.

Silver Rated

MINI VAULT SILVER

(£4,000 cash rating)*

The Mini Vault Silver is ideal for the safekeeping of cash and valuables. Whilst the manufacturing techniques used provide a robust unit for domestic and commercial applications, its internal fittings are those you would expect to protect delicate valuables, such as watches, jewellery and electronic tablets. This protection is achieved by utilising an anti-bludgeon laser cut door (to prevent prying and chisel attack) mounted on concealed hinges and hardened steel plates to protect all vulnerable areas.

- Manufactured with a 4mm body and 8mm anti-bludgeon flush fit door, with 25mm hardened steel locking bolts.
- Available in 4 sizes, plus 2 deposit options.
- A choice of key or electronic locking mechanisms, the electronic options offers changeable codes, low power warning and LED indicators.
- All models have felt lined walls, thick foam base pad, jewellery shelf** and battery operated motion sensitive light.
- Mini Vault 3 has been designed to accommodate a till or jewellery draw of a width 410mm.

Gold Rated

MINI VAULT GOLD FR

(£4,000 cash rating)*

The Mini Vault Gold FR is ideal for the safekeeping of documents, valuables and cash. Whilst the manufacturing techniques used are intrinsically the same as Mini Vault Silver the FR model benefits from a double walled construction, with a fire resistant barrier material to DIN 4102. The inclusion of this second level of protection gives the FR model its fire protection.

- Combined body thickness of 6mm, an 8mm anti-bludgeon door with 25mm hardened steel locking bolts.
- Available in 4 sizes.
- Choice of key or electronic locking mechanisms. The electronic options offer changeable codes, multiple users, low power warning and LED indicators.
- All models include jewellery shelf** and battery operated motion sensitive light, fixing bolts, batteries and operating instructions.

EURO GRADE o

(£6,000 cash rating)*

Constructed to exceed the criteria laid down by the insurance and security industry, these Euro Grade 'o' safes are also designed to blend in with today's modern environments, a subtle combination of material and components that function well beyond our customers expectations. The lightweight construction encourages increased installation opportunities with fixing made through twin anchor points.

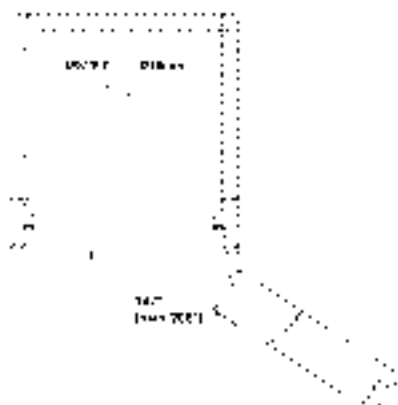

- £6,000 overnight cash cover (£60,000 valuables)*
- 30 minutes protection from fire at 750°C – BS476-20
- Manufactured in accordance with EN 1143-1:2005 and independently tested and certified by VdS test house
- 3-way square locking bolt work, with continuous hinge side protection
- Door open to 205° for maximum access
- Fitted with VdS class 1 double bitted safe lock & 2 keys
- Optional combination or electronic locking available
- Internal door pan is locked to prevent tampering
- Supplied with adjustable (50mm intervals)/removable shelf
- Deposit Models available

STRONGROOMS & SAFETY DEPOSITS

(Grade 0-9)

The Modulprim is a bespoke, on-site-assembled modular vault solution for both new build and existing buildings that require a high security room. Consisting of four walls, a floor, ceiling and vault door, Modulprim offers a complete storage facility for money, important documents and other valuables.

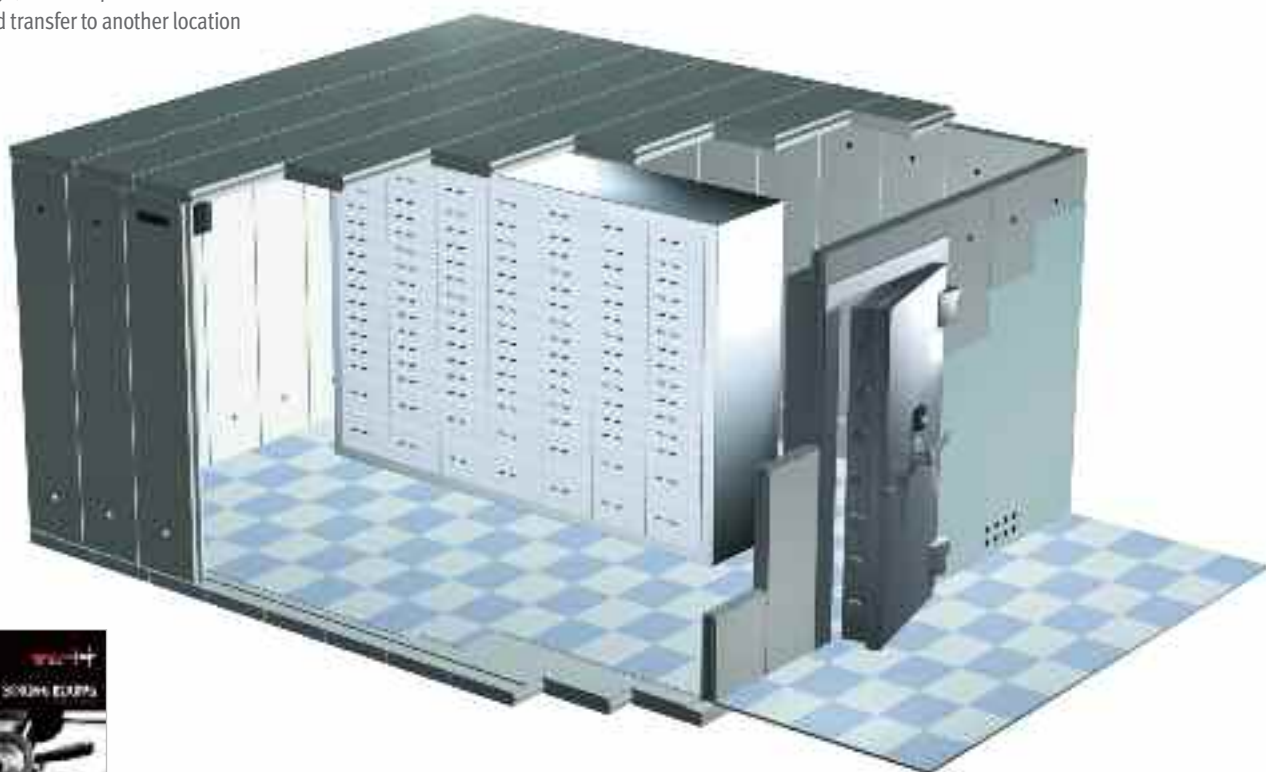

These vaults can also be supplied as a 5-sided solution (walls and ceiling) if desired, which is often a requirement for the pharmaceuticals market. All vault elements are subjected to extremely rigorous tests to meet European security standard EN1143-1. These were undertaken at the VdS in Germany, ensuring European wide approval, and each product is branded with the appropriate badge as proof of certification.

Modulprim construction – advantages

- Thin walls enable high usability of space
- The installation of a vault on upper floors and within a existing facility
- Modulprim components are welded together from smaller panels allowing installation in difficult to reach locations such as cellars via narrow passage ways, it is also possible to disassemble the vault and transfer to another location

The table below displays the recommended overnight cash rating for our modular vaults. Strongrooms at the lower grades (0-5) are constructed in the same manner as our Euro Grade freestanding safes. Both Strongrooms and Free Standing safes meet the requirements of EN1143-1

Grade 0:	£6000 Cash Rating
Grade 1:	£10,000 Cash Rating
Grade 2:	£17,500 Cash Rating
Grade 3:	£35,000 Cash Rating
Grade 4:	£60,000 Cash Rating
Grade 5:	£100,000 Cash Rating
Grade 6:	£150,000 Cash Rating
Grade 7:	£250,000 Cash Rating
Grade 8:	£400,000 Cash Rating
Grade 9:	£650,000 Cash Rating

DEPOSIT SAFES

In most commercial environments there is a need for a deposit safe, somewhere where you can safely deposit items such as cash, keys and other valuables without the need for keys and codes to open the safe and without drawing attention to its existence. Securikey provides a wide range of quality deposit safes, with a variety of cash ratings and deposit methods, which offer total flexibility in the workplace.

MINI VAULT SILVER (SEE PAGE 18):

- Ideal under desks or counters.
- Available with letter slot deposit (Mini Vault 1) or front hopper deposit (Mini Vault 2).

EURO GRADE (SEE PAGES 20):

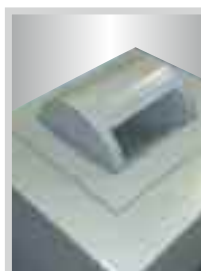

- A wide range of models suitable for most applications.
- A choice of 3 different deposit methods including rotary drum, letter slot or capsule deposit tube.
- The secondary installation of a rotary drum or capsule deposit requires removal of the VdS badge. Please inform your insurers accordingly.

UNDERFLOOR SAFES (SEE PAGE 27):

- Ideal for use where space is at a premium.
- Deposit tube diameter is 52mm.

STEEL STOR (SEE PAGE 30):

- SCDR48 offers a top loading rotary deposit drum with a 90mm x 250mm aperture. A spring return ensures the drum is always closed.
- SC60 and SC100 can be supplied with a front loading rotary drum deposit, having an aperture of 90mm x 200mm x 220mm.
- SC60WDD is equipped with a lockable front deposit drawer thus removing the need to open the cabinet. It features a 240mm x 160mm x 75mm drawer aperture.

UNDERFLOOR & DIY SAFES

(Up to £10,000 cash rating)*

Underfloor safes are designed for installation in a concrete style floor. The level of protection provided due to the nature of the installation and location possibilities is huge. Our DIY safe range is deemed suitable for installation with little or no specialist knowledge. Advice on the installation of this product will be provided at point of purchase.

PROTECTOR RANGE:

- Available in five models with a choice of interchangeable doors covering 3 cash ratings.
- High level of security with interlocking bolts controlled by a key or keyless combination and anti-drill features.
- ABP models protect against thermal attack.

HOUSESAFE RANGE:

- Available in three models and secured with a high quality safe lock.
- Economic way of protecting cash, valuables, vital documents.

DIY RANGE:

- Secure storage for A4 papers, passports, insurance certificates or jewellery.
- Models to install under a timber floor or for surface mounting.

GUN CABINETS

These gun and ammunition cabinets exceed the UK standard (BS 7558) for storing firearms and utilise 3-way 25mm locking bolts, secured by a single high security key lock to EN 1300. Concealed hinges and continuous hinge side protection offer superior resistance from attack.

- Multi point locking with 8-lever safe lock.
- Gun cabinets are supplied with a trigger lock to prevent unauthorised use of a firearm during transportation.
- Ammunition cabinet is supplied with 2 shelves.

SECURE STOR

(£2,000 cash rating)*

Secure Stor offers an economic solution to the ever increasing problem of safe storage of high value bulk items.

Whilst built to the same exacting standards as the Steel Stor range, these units are tested to EN14450 S1 and certified by VdS in Germany. Manufactured with a 3mm solid steel body, with 3-way locking mechanism and VdS approved class 1 safe lock. The internal hinges allow the door to open 102°. Hardened steel plates protect all other areas prone to attack. Available in five sizes with an alternative electronic locking option, the cabinet is supplied with prepared base fixing points and shelves.

STEEL STOR

(£3,000 cash rating)*

The Steel Stor range is extremely well suited to the secure storage of controlled drugs, cigarettes, bags of change examination papers and other bulky valuable items. Subjected to a severe burglary and attack test, these cabinets are used in many Hospitals, Government Departments, Schools and Retail premises.

- Subjected to a severe Norwegian burglary test.
- 4mm steel body with 3-way locking bolts and a VdS class 1 approved safe lock.
- Fitted with a continuous dog bar over the hinged side of the door and hardened plates to protect against attack.
- Cabinet is supplied with prepared base fixing points, shelves and door boxes.
- Dual locking facility available on all models, (except SCo60).
- Additional fittings available - Shelves, Rotary Drum Deposit (SCo60 & SC100 only).
- **Used extensively by Government offices, when fitted with the appropriate approved lock.**

MEDICAL STORAGE

Our range of Medical Storage Cabinets are designed using our extensive knowledge of the protection and control of cash and valuables. The 'Bronze Level' Medical Cabinet is suitable for storing general First Aid items, whilst the 'Silver & Gold' units are perfect for controlled drugs that are governed by the Home Office Drugs Inspectorate direction of control.

- **Bronze level** cabinet features: 1.5mm pressed steel construction with security cam lock, shelves and lockable inner compartment.
- **Silver level** cabinet features: 4mm body with 8mm anti-bludgeon door fitted with 8-lever safe lock to EN 1300 and includes 2 shelves.
- **Gold level** Choice of body thickness - 3mm (Secure Stor) or 4mm (Steel Stor) for added security. Both ranges feature multi point locking and adjustable shelves. Steel Stor also includes door boxes to maximise the space available. (see Secure Stor page 29 or Steel Stor page 30).

Gold and Silver cabinets conform to the construction required for the misuse of drugs (safe custody) regulation 1973.

POST BOXES

HIGH SECURITY POST BOXES:

Our sleek, weatherproof High Security Post Boxes are available in two sizes and have been designed for outdoor environments to protect letters and small packets from theft. As part of our One Key Solution range, High Security Post Boxes offers the potential for integration with existing ‘single key’ systems, simplifying security and offering increased flexibility.

- 1.5mm thick steel with Euro Profile locking

STANDARD POST BOXES:

Utilising high grade steel, powder coating and high quality cam lock, these fabricated post boxes are built to the same exacting standards as our ‘System’ key cabinets. Available in two sizes with the option of front or top loading, both sizes will accept A4 comfortably. To avoid rattling in strong winds, noise dampening materials have been incorporated.

- Quality cam lock and powder coated to give years of service

Fire Vault 1

FIRE STOR

(£2,000 cash rating)*

Our range of secure fire and burglary resistant storage cabinets are an affordable solution for the safekeeping of both valuables and documents. The cabinets are double-walled with a fire resistant barrier material to DIN 4102. The inclusion of this second level of protection gives these cabinets their fire resistance. In addition, they have undergone a burglary test and so are well suited to the storage of valuables up to the value of £20,000.

- Tested and complies with EN 14450 – S1.
- Double walled construction with fire resistant filling to DIN 4102.
- Each model is fitted as standard with five heavy-duty locking bolts secured on three sides and a VdS approved safe lock.
- Additional options include an internal lockable compartment (180mm high on single door version, 300mm high on the double door version), pull-out frames for drop files and additional shelves.

KEYLEX MECHANICAL DIGITAL LOCKS

Access control is vital to providing a secure environment and ensuring the integrity of a building or area and the safety of staff. Our range of Keylex mechanical digital locks offer a simple, convenient and effective solution and offers a number of advantages over keyed locking systems. While not requiring keys, cards or tokens which can be damaged, lost or stolen, they're also totally self-contained and don't require any additional hardware. Reinstating security is quick and easy if codes are compromised.

SAFETY IN NUMBERS • LIGHT COMMERCIAL & INDUSTRIAL USE • INDOOR & OUTDOOR APPLICATIONS
USED BY MILITARY, POLICE, BANKS AND BUILDING SOCIETIES

MECHANICAL DIGITAL LOCKS

500 – MINI:

- Narrow design suits timber doors with stile widths down to a minimum of 80mm.
- Suitable for low-security internal door installations.

800 – LIGHT DUTY:

- Narrow design suits aluminium hollow metals sections with stile widths down to a minimum of 80mm.
- Optional key override facility.

700 – MEDIUM DUTY:

- The integral slipping clutch mechanism and narrow-stile design suits aluminium hollow metals sections with stile widths down as low as 43mm.
- Suitable for high-security external door installations and on any door where a flexible euro profile keying system is required.
- Models available to suit Adams Rite Latch and Multi-Point Door Locks

2100 – HEAVY DUTY:

- Will withstand all but the most violent attack and will provide many years of service.
- Suitable for all external door installations and on any door where heavy traffic or extreme use and misuse is expected.

CONVEX MIRRORS

Strategically placed, our extensive range of convex mirrors are used to improve security, safety and operational efficiency in a diverse range of environments, from Factories to Warehouses, on Shop floors and in Hospitals, in Police Stations and Prisons – eliminating blind spots and improving surveillance where visibility is poor.

ELIMINATING BLIND SPOTS • IMPROVING SURVEILLANCE • INTERNAL/EXTERNAL OPTIONS
HIGH QUALITY CONSTRUCTION • AVAILABLE IN ACRYLIC AND STAINLESS STEEL

Viewing Distance:

This is the combined distance from the observer to the mirror **PLUS** the distance from the mirror to the object being observed.

INTERIOR & EXTERIOR MIRRORS

- Eliminate blind spots.
- Improves safety, prevents accidents and injuries.
- Act as a powerful deterrent against crime.
- Tough ACM back, ideal for industrial situations.
- Low maintenance.
- Ideal for Factories, Warehouses, Hospitals, Car Park entrances and exits

MASTER LOCK®

Master Lock® is recognised around the world as the solid, enduring name in padlocks and security products. Generations of people have grown up with Master Lock® products at Home, School and Work. Master Lock® Europe, listening carefully to its markets, develops specific ranges of products designed to meet the needs of every country. Our customers expect our locks to be reliable, durable, and functional. Above all, they must be secure.

RELIABLE • DURABLE • FUNCTIONAL • HIGH SECURITY • WEATHER PROTECTED
ATTACK RESISTANT • DOMESTIC, COMMERCIAL & INDUSTRIAL USE

Master Lock® are the largest global manufacturer of padlocks and safety/security devices:

PADLOCKS WITH KEYS

- Low to medium security ranges manufactured from brass, aluminium, laminated & stainless steel.
- High Security ranges - Pro Series and Excell in brass, laminated, stainless and hardened steel.
- Complimentary range of hasps, cables and chains to suit.

COMBINATION PADLOCKS:

- With 3 or 4-digit fixed and re-settable combinations. Ideal for luggage, sports bags, school lockers, gym lockers, gates, sheds, bikes, anywhere keyless security is required.

LOCKER LOCKS:

- A choice of 3-digit fixed combination padlocks or 'built-in' combination locks with management override control.

KEY STORAGE

- Key storage solutions that only allow those you trust access. Used by maintenance workers, district nurses, cleaners, home helpers and children after school.

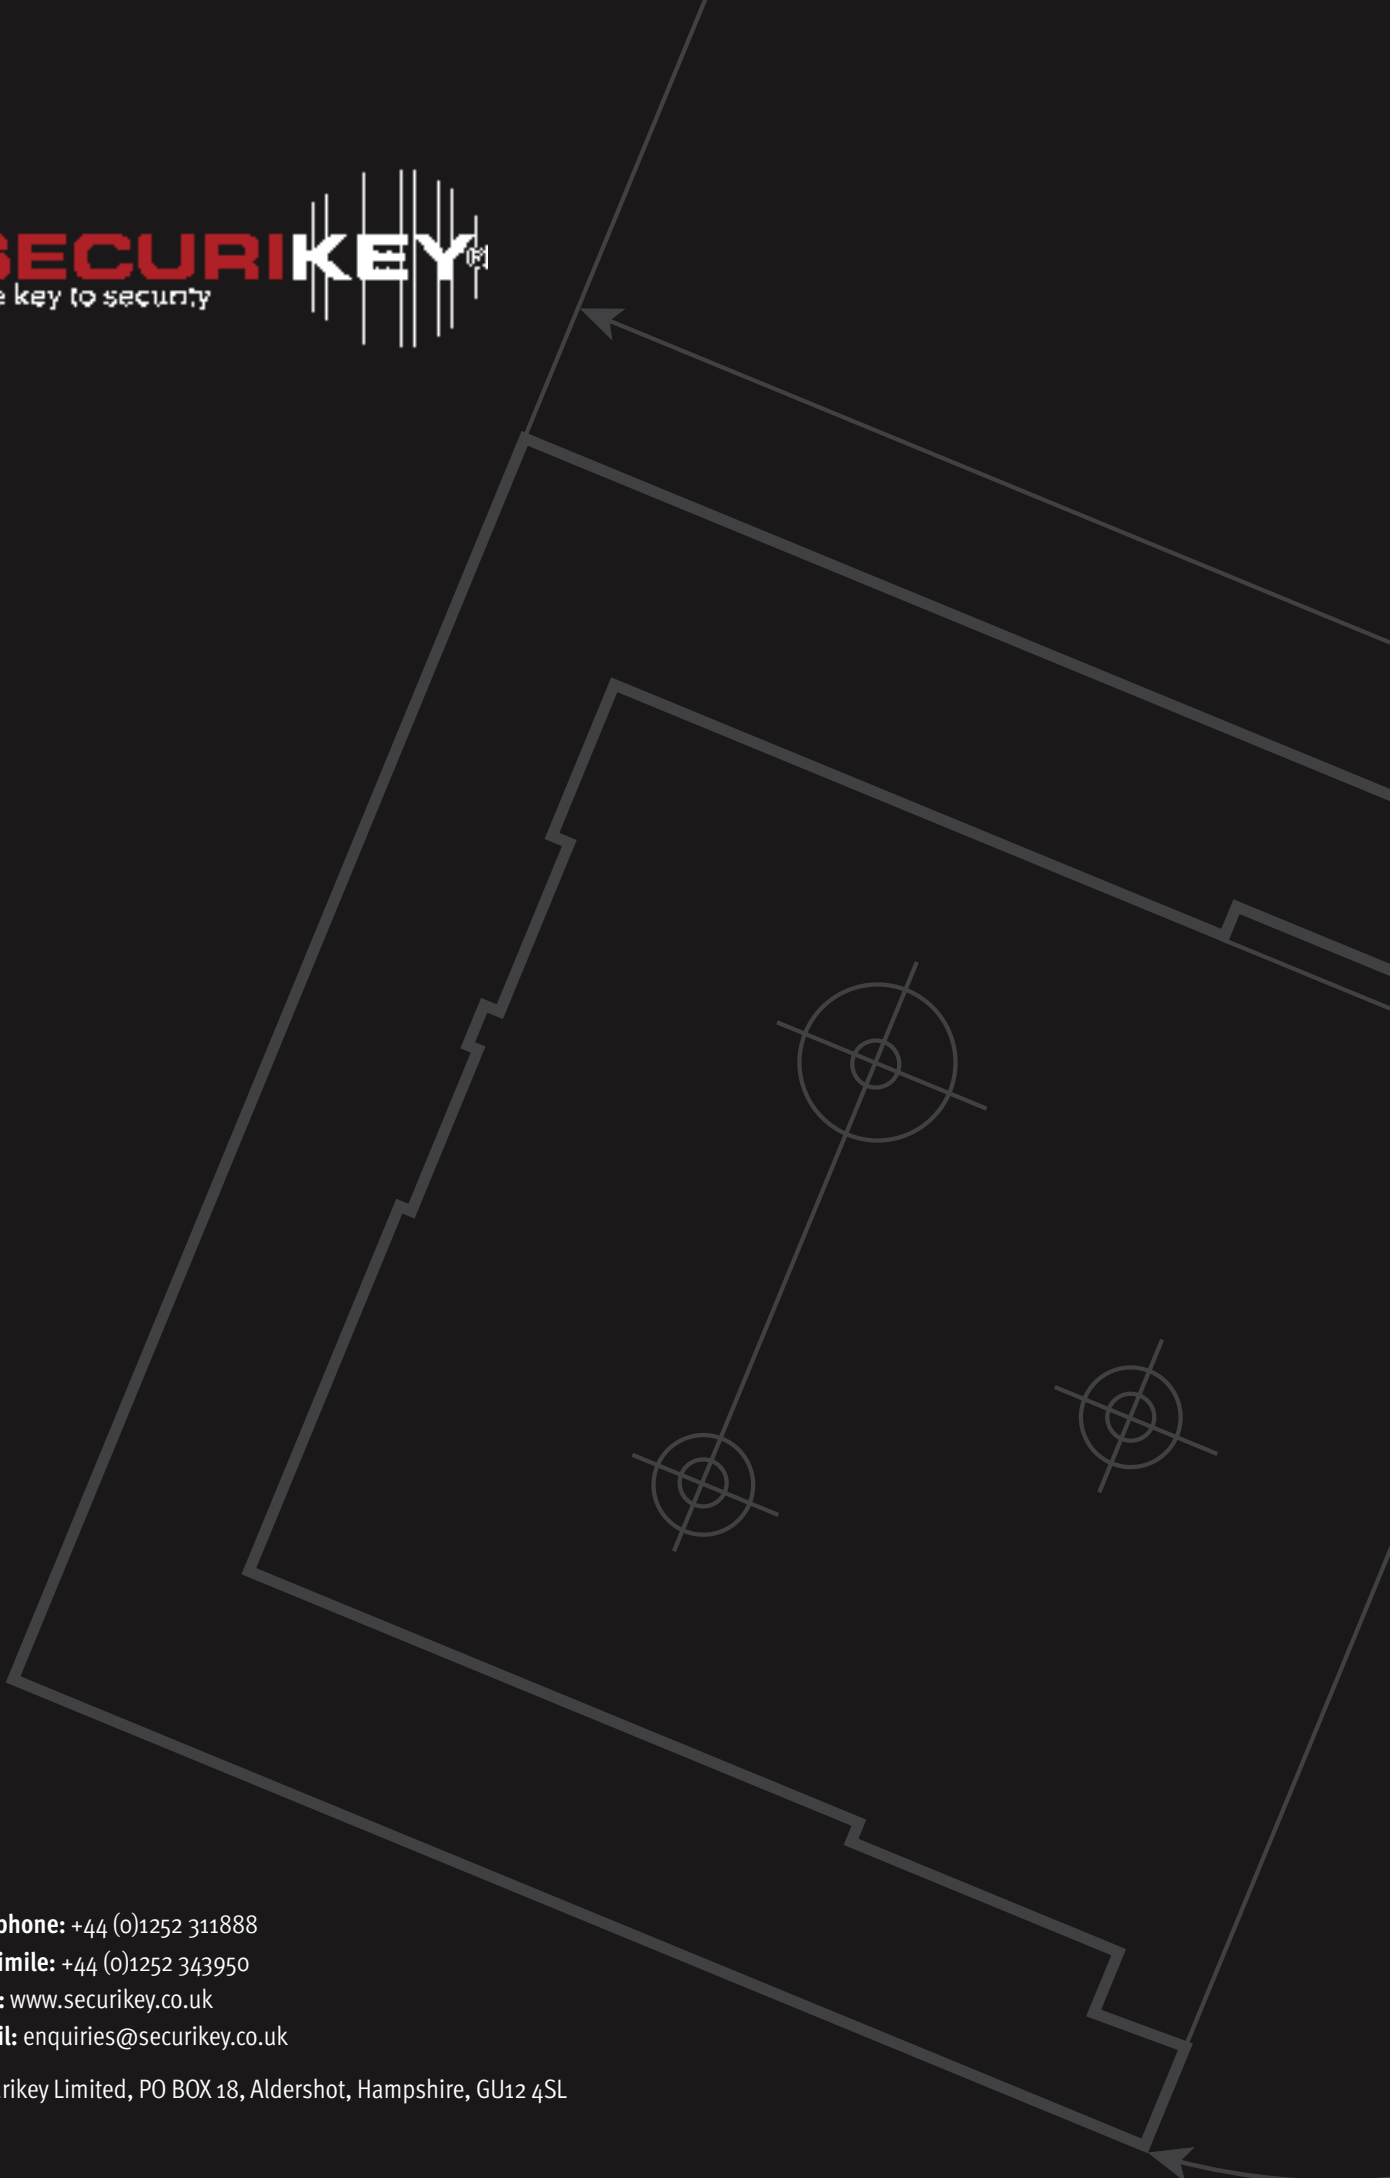

SAFETY LOCKOUT / TAGOUT

- Protects your employees when carrying out repairs or routine maintenance to plant/machinery. Vital in preserving life and preventing prosecution.

THE COMPLETE MASTER LOCK RANGE IS TOO EXTENSIVE TO FEATURE IN THIS PRODUCT GUIDE. IT IS AVAILABLE AS A SEPARATE CATALOGUE, DOWNLOADABLE FROM WWW.SECURIKEY.CO.UK OR CONTACT US FOR A COPY.
